## Meeting Minutes

**Attendees:** Jay Vasek, Jan Lambert, Andy Stone, and Tad Erickson

### Welcome and Introductions

- The group went around and introduced themselves and briefly described the organization that they work for and represent.

### Goals and Vision of Committee

- Analyze the geography, population served, hours of operation, cost per trip, type of service, and funding source for all transportation within the region.
- Barriers that exist include silos or having each transportation in their own area and confined to just that.
- Another barrier is the private and public transportation programs as they operate in different ways but can pass each other on the roads daily.
- Need to develop a functional transportation program directory for easy use by whoever accesses it.
- Based upon the exploration of routes we need to analyze where and when services are overlapping and come up with possible solutions.

### Timeline and Schedule

- It had been decided that the group would meet again in early April but this has been postponed due to COVID19.
- Aiming to have the next meeting in May.
